

# EU-Angola: Country projects

#GlobalGateway #TeamEurope

October 2023

## SUSTAINABLE ECONOMIC DIVERSIFICATION

Boost Angola's non-oil exports, global market integration, and decent job creation, with focus on value chains, trade integration, environment, renewable energy and economy formalisation.

## GOVERNANCE

Support Angola's governance reform and sustainable economic diversification agenda.

- **Rule of Law and economic governance:** strengthen the justice system, fight organised crime and support public finance management reforms
- **Civil society:** enhance civil society's role in policy dialogues and foster citizens' participation in governance to promote transparency and accountability

## HUMAN DEVELOPMENT

Technical and Vocational Education and Training: equip Angolan workers, including women and youth, with the relevant skills to contribute to the country's economic diversification.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
